Our Vision

We want to reshape online recruitment by removing the steep financial hurdles that complicate hiring and career advancement.

Our goal is to cultivate a thriving employment marketplace where every candidate has the tools to present their skills confidently, and where local businesses and independent employers can expand their teams alongside major corporations, supported seamlessly by the broader Couponzu digital network.

Our Values

At Jobs1Bay.com, four guiding commitments shape how we connect employers and candidates:

Barrier-free opportunity:Finding work or hiring staff should never drain your budget. Job seekers browse and apply for free, while our participating club members post openings at zero extra cost beyond their existing annual membership.

Candidate empowerment:Every applicant deserves a strong first impression. Through our companion tool at www.resume.couponzu.com, candidates who do not yet have a resume can craft a polished profile from scratch and publish it directly to Jobs1Bay.com.

Practical simplicity:Recruitment works best when it is straightforward. We strip away bloated software and confusing paywalls so employers and job hunters can connect, communicate, and make decisions quickly.

Ecosystem synergy:As a dedicated service within the Couponzu family, we believe in multiplying membership value, turning a single business subscription into marketing visibility, customer rewards, and full-scale workforce recruitment.
